

# WiSSAP 2023

WINTER SCHOOL ON SPEECH AND AUDIO PROCESSING

## "AI For Music"

WiSSAP 2023, with the theme "Music Information Retrieval: AI for Music", aims to feature talks, tutorials, and posters on a diverse range of topics such as musical genre classification, new interfaces for musical expression, music robotics, computational ethnomusicology, and computer-assisted music instrument tutoring. By leveraging this multidisciplinary approach, the school aims to enhance the computational understanding of music and enable more effective human-music interaction.
